5 Benefits of Daily Walks

Walking might seem simple, and you may even wonder if it's enough by itself, but it's actually very beneficial when it comes to improving your health.

Whether you're already taking daily walks for your health and mental well-being or have just been thinking about where to start, this guide will help you understand the benefits of walking and how to make it an enjoyable part of your daily routine.

1. **Walking can help boost your heart health**-Walking is one of the finest exercises to ensure a healthier heart and better health in general. It lowers your blood pressure, improves circulation, and can even reduce your risk of heart disease and strokes if you can manage a brisk easy walk for 20 to 30 minutes each day. Don't worry, you won't have to go too far – even just a walk around the block can help.
2. **Walking is gentle on your joints**-It will keep you flexible and strengthen your muscles. Walk on softer surfaces like grass or dirt when possible since it's easier on your knees and hips.
3. **Clears the mind and boosts the mood**-Walking is not just good for your body; it is also a great way to reduce stress and get you out of your head. Consider leaving your phone at home to really enjoy the sights and sounds of nature. Take in the sunshine and listen to the birds chirp. If you're feeling social, ask a friend to join you.
4. **Improves balance and mobility**-It strengthens your core and leg muscles and enables you to move and maintain your coordination. Try to be really mindful of your posture when you walk. Stand tall, engage your core, and take slow and steady steps.
5. **Make it an enjoyable part of your routine**-Listen to music, look for new and interesting paths.

While walking may be one of the more basic forms of exercise, it's an excellent boost for seniors and retirees who are worried about maintaining their health. It supports your body, improves your mental well-being; and can be a great source of routine and joy.

Bibles and Cell Phones

What would happen if we treated our Bibles like we treat our cell phones?

What if we carried it around in our purses?

What if we turned back to go get it if we forgot it?

What if we flipped thru it several times a day?

What if we used it to receive text messages?

What if we treated it like we couldn't live without it?

What if we gave it to kids as a gift?

What if we used it as we traveled?

What if we used it in case of an emergency?

Unlike our cell phones being disconnected, it can't happen with your Bible because Jesus paid the bill.

Flag Day

Flag Day commemorates June 14, 1777, when the Continental Congress determined the composition of the nation's banner: "Resolved, that the flag of the thirteen United States be thirteen stripes, alternate red and white; that the union be thirteen stars, white in a blue field, representing a new constellation.

The holiday is a time to celebrate American values, including freedom, unity, and patriotism.

To properly honor the flag, you want to be sure you're displaying it correctly: Raise the flag briskly and lower it ceremoniously. Never allow the flag to touch the ground or floor. The flag should never be transported flat or horizontally, but always aloft.

Symbolism of the flag elements:

Stars:

The 50 white stars on a blue field represent the 50 states of the United States.

Stripes:

The 13 alternating red and white stripes represent the 13 original colonies that formed the nation.

Colors:

- **RED:** Symbolizes hardiness, valor, and courage, representing the readiness to sacrifice for the country.
- **WHITE:** Represents purity, innocence, and independence from other countries, reflecting the nation's core values and ideals.
- **BLUE:** Represents vigilance, perseverance, and justice, symbolizing the nation's

commitment to upholding its principles and ideals.

The flag's design and symbolism are rooted in the nation's history, with the stars and stripes evolving over times as the United States grew and expanded.

Birds go to sleep on their perches, but they never fall off. This is because the tendons in the bird's legs are constructed so that when the leg is bent at the knee, the claws contract and grip like a steel trap. The claws refuse to let go until the knees are unbent again. The bended knee gives the bird the ability to hold on to his perch so tightly.

Isn't this also the secret of holding power of the Christian? Daniel found this to be true. Surrounded by pagan environment, tempted to compromise with evil, urged to weaken his grip on God, he refused to let go. He held firm when others faltered because he was a man of prayer. He knew the power of the bended knee, from sleeping birds we can learn the secret of holding things which are precious to us – honesty, purity, thoughtfulness, honor and character. That secret is the knee bent in prayer, seeking to get a firmer grip on those values which make life worth living. When we hold firmly to God in prayer, we can rest assured he will hold tightly to us.

A preacher from out of state accepted a call to a church in Houston. Some weeks after he arrived, he had an occasion to ride the city bus. When he sat down, he discovered that the driver had accidentally given him a quarter too much change.

Messiah delivers scripture to the reader as it was originally created: without chapter or verse breaks.

As he considered what to do, he thought to himself, "You'd better give the quarter back. It would be wrong to keep it." Then he thought, "Oh, forget it. It's only a quarter. Who would worry about this little amount? Anyway, the bus company gets too much fare. They will never miss it. Accept it as a gift from God and keep quiet." When his stop came, he paused momentarily at the door and then handed the quarter to the driver and said, "Here, you gave me too much change." The driver smiled and replied, "Aren't you the new preacher? I have been thinking a lot about starting back to church and wasn't sure where to go. I just wanted to see what you would do is I gave you too much change. I'll see you at church on Sunday."

When the preacher stepped off the bus, he literally grabbed the nearest light pole, held on and said, "Oh God, I almost sold your son for a quarter."

People watch us as Christians and will put u to the test. Always be on guard and remember tht you carry the name of Christ on your shoulders when you call yourself "Christian."

Prayer Cross

A prayer cross is at the front of the sanctuary. All of us know and love someone who doesn't have a relationship with the Lord. You're invited to write the 1st name of that person on a card and we will all pray for them. We'll pray that the Holy Spirit will speak to these people leading them to come to the Lord's side.

There are plenty of cards on the table. Let's all pray for those we love and care about to draw close to Jesus.

A Pencil Maker Told the Pencil

Five important lessons just before putting it in the box.

****Everything you do will leave a mark.**

****You can correct the mistakes you make.**

****What is important is what is inside of you.**

****In life, you will undergo painful sharpening which will make you better.**

***To be the best pencil, you must allow yourself to be held and guided by the hand that holds you. We all need to be sharpened. May this parable encourage you to know that you are a special person, with unique God-given talents and abilities. Only you can fulfill the purpose which you were born to accomplish. Never allow yourself to get discouraged and think that your life is insignificant and cannot be changed and, like the pencil, always remember that the most important part of who you are is what's inside you.*

Landscaping

Over the past few weeks and with the rains, the weeds are growing fast. Some of our folks have already taken time to weed some of the landscape and we thank them for their time and work. However, there is still a number of areas around the church including the playground, the parsonage and the white fence between the church and hospital that need help. If you have the time and would like to adopt an area to work this summer and keep the weeds pulled, it will help keep the grounds looking manicured. It would be similar to the Adopt a Landscape project we did a few years ago. You do not need to trim bushes. It's the weeds that are getting out of hand. More time will be necessary in the beginning to get the area under control followed by regular monitoring will keep it under control. If you have a specific area you are interested in working, please let Diana Dornbusch know, and she will keep track. If you want to know what is

*available, ask Diana. Thank you all in
advance. Many hands make the work less hard.*
